Enjoy a rustic environment. No compound walls – just green fencing with shrubs and trees. No roads – just properly consolidated earth. Live in the beauty and natural habitat provided by nature, all around you.

Optional 200 sq ft servant quarter in each farm(at extra cost)

I always wanted a Farmhouse but it is too expensive to maintain.

Hill View Farms offers housekeeping and gardening services at a very nominal price. We will keep your farmhouse green by developing and maintaining a plantation on it.

I am used to modern comforts and security of my own house.

Hill View Farms gives you the best of both.

We quite understand that you have passed the roughing it out days and are used to a modicum of comfort and a little of luxury too. Relax and enjoy 24x7 water supply , Power back up , 24 hours security with CCTV, clubhouse and a general store for the small needs.

This is about recapturing the essence of quite farm house- life before we fell in the whirlpool of urban life.

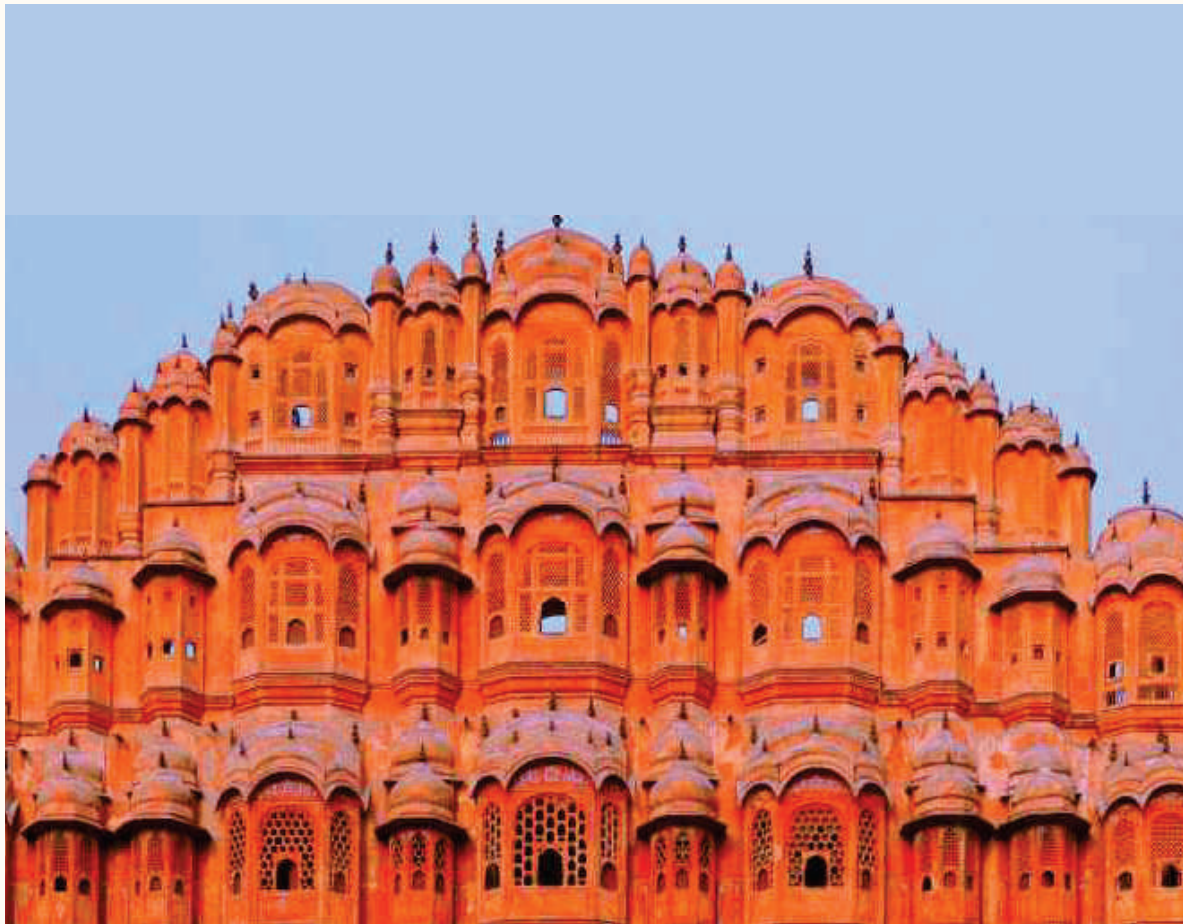

Imagine a farm house of your own in soothing natural surroundings. A slice of life straight from unforgettable fantasies set in story books. A life in a peaceful surrounding with Family and friends which will relax you after hectic weekdays. Discover the delights of magnificent views, unwind and relax in absolute privacy, the sweet sounds and smells of nature. You may grow your own fruits and vegetables in your farm.

An accommodation in the midst of vibrant shades of verdant green, a place that was inhabited yet very calm, where silence was the music, days started with the avian choir, progressed under the shadow of mango trees and slept under millions of twinkling stars. This is how you will remember Hill View Farms
